

Laser Parts Lists

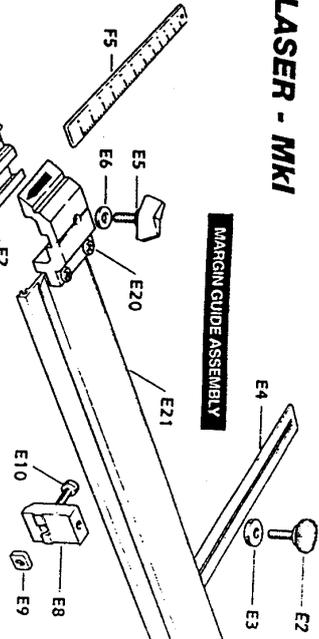

The Laser Mk I Matcutter was first sold in 1986, during the summer of 1988 the Mk II was released. Parts lists for both machines are included, to identify between the machine types match up the cross-section of the Slideway as shown in the bottom left hand corner of each page.

The Laser has been obsolete for many years now and as such there are only a few spare parts available for it now. These are listed below and circled on the parts diagrams.
